Why Are We Here?

You might have noticed we have a lot of different products...

When we started Tasty Brands, we looked around and saw a lot of great companies (for example beef, turkey, pizza, and chicken), and we **didn't want to offer what everyone else already had.**

We decided to offer **unique, high-volume items** that students would look forward to eating. This way, **distributors would partner with us** and schools would find that our products are student favorites that drive participation.

That's why you may see different types of items in our lineup!

Tasty Brands develops products with 3 things in mind:

Uniqueness

High-Volume

Participation Driving

We have four distinct product lines, each with different strengths:

Lunch

Convenience

Breakfast

À La Carte
